

DECLAMATION FOR CLASS I

A mother is the most precious person in the life of everyone, about whom we cannot describe completely in words. However some of the valuable moments with our mother can be described. A mother is the most beautiful and caring person in our lives. She always cares every moment for our every need without any personal interest. In the morning, she calls us very softly to wake up from the bed and during night she tells us lovely stories to make us sleep. She helps us to get ready for school with proper breakfast and hygienic lunch. She always waits at the door for us while we return from school. She helps us to do our school homework. She is the one who spends sleepless nights during our sickness and other bad days. She happily involves in our happy moments and understands our each and every like and dislike. She always guides us to go ahead in the right path and do right things in life. She is our first teacher who teaches us at every step of our life. She teaches us to always be disciplined, behave well and makes us understand about our roles and responsibilities towards family, society and country.

In a nut shell, we can say that mother is the God's Gift to each and every one of us.

Let us all pledge on this day, that, we shall respect our parents and elders and take care of them when we grow up as adults.

DECLAMATION – CLASS II

All of us at some time or other have wished for a secret genie or a fairy Godmother. We would like to rub the magic lamp and have the genie of our wishes appears. The fact is we all have a secret genie. That is our Mother!

A mother is only one in everyone's life whom another can never replace her in our heart. She is like true nature who always knows only to give us, not taking back anything in return. We see her from the first moment of our life when we open our eyes in this world. The first word of us becomes mom whenever we start speaking. She is our first love, first teacher and first of our entire first friend in this big world. When we born we are nothing and unable to do anything however it is she who make us grow and develop in her arms. She makes us able to understand and do anything in this world.

She is always only for us and nurtures us like God. If there is any God on the earth, it is our mother. No one can care and love us like our mothers and no one can sacrifice everything for us like her. She is the best woman of our life whom place can never be replaced by anyone in the future. Even after being tired she become always ready for us to do everything like a tired less one. She wakes up us in the early morning very politely, prepares breakfast and gives lunch and water bottle as usual.

She waits for us in the afternoon at the door after doing all the daily chores. She prepares a delicious dinner in the night and always takes care of our likes and dislikes. She helps us in doing our homework and project. She never tired off giving lots of love and care like ocean can never be water less. She is unique and only one in the whole universe whom nothing can replace. She is the true solutions of our all the small and big problems. She is one who never says bad to her child and always takes side of her child.

In a nut shell, we can say that mother is the God's Gift to each and every one of us.

DECLAMATION FOR III STD

(The president of USA Sri. Barack Obama addressing the school children)

Now I've given a lot of speeches about education, a lot about responsibility, about your teachers' responsibility for inspiring you, and pushing you to learn, about your parents' responsibility for making sure you stay on track,

But at the end of the day, we can have the most dedicated teachers, the most supportive parents, and the best schools in the world – and none of it will matter unless all of you fulfil your responsibilities. Unless you show up to those schools; pay attention to those teachers; listen to your parents, grandparents and other adults; and put in the hard work it takes to succeed.

And that's what I want to focus on today: the responsibility each of you has for your education. I want to start with the responsibility you have to yourself.

Every single one of you has something you're good at. Every single one of you has something to offer. And you have a responsibility to yourself to discover what that is. That's the opportunity an education can provide.

And no matter what you want to do with your life – I guarantee that you'll need an education to do it. You want to be a doctor, or a teacher, or a police officer? You want to be a nurse or an architect, a lawyer or a member of our military? You're going to need a good education for every single one of those careers. You've got to work for it and train for it and learn for it.

No one's born being good at things; you become good at things through hard work. Don't be afraid to ask questions. Don't be afraid to ask for help when you need it. And even when you're struggling, even when you're discouraged, and you feel like other people have given up on you – don't ever give up on yourself. Don't let your family or your country or yourself down. Make us all proud.
