

Class XI

The Topic to be focussed on revision for
half-yearly.

- 1) Projectile Motion.
- 2) Velocity of the vehicle on the circular banked road, & level road.
- 3) Elastic & In elastic Collision.
- 4) Circular Motion
- 5) Work-energy Theorem. (variable force & constant force)
- 6) Numericals solved in the class work note Book.
(From Chapter 1-6).

7) Deriving three equations of motion through graphical method & calculus method.

8) Systematic Errors

9) Parallax Method.

10) Parallelogram method (for vector addition)
