

BALANCE THE EQUATIONS:-

WRITE THE FORMULA FOR THE FOLLOWING COMPOUNDS:

1. Zinc Sulphate

2. Lead Nitrate.

3. Potassium Iodide.

4. Calcium Carbonate.

5. Barium chloride
6. Aluminium sulphate
7. Magnesium Nitride.
8. Ammonium Chloride.
9. Aluminium Oxide.
10. Silver Chloride
11. Zinc oxide
12. Copper Sulphate
13. Copper hydroxide
14. Aluminium Hydroxide
15. Silver Sulphide
16. Sodium hydrogen sulphate
17. Calcium bicarbonate
18. Sodium Oxide
19. Magnesium Hydroxide
20. Carbon Tetra Chloride.

iii) Make a dictionary of new terms introduced in the chapter “Life Processes” and Control and Coordination with their meaning.

iv) Draw a labeled diagram of Digestive System, Respiratory System, Excretory System and stomata .

(optional)

If you simulate photosynthesis what preparations will you make and how will you achieve the result.
